

FB SERIES 730DC FB Color

730DC COLOR FLATBED SCANNER. Delivering big performance at a small price.

Introducing the new 730DC Flatbed Scanner, a cost-effective color solution for high-output, large-format scanning at document sizes of up to 11" x 17". There's no better way to produce brilliant, large-format color images at truly remarkable throughput speeds. And perhaps best of all, the 730DC FB does it at a cost that's a fraction of other scanners currently available on the market.

Presenting an image of quality color.

For true-to-life dynamic imaging, the 730DC FB provides real 600 dpi optical resolution and the rich color depth of 36-bit input. It achieves a maximum output resolution of 2400 dpi with 12-bit input to ensure crisp, clean and exceptionally legible characters use after use, day after day.

The 730DC FB comes with a standard SCSI interface.

Building customer satisfaction into every 730DC FB Scanner.

Bell & Howell continuously strives to develop and sell products that answer our customers' real world needs. The 730DC FB is the product of this commitment. For unsurpassed peace of mind, it includes a comprehensive one-year warranty with 72-hour response time, on-site technical support in the United States. Optional 4- and 8-hour response is also available.
