

AV610

The AV610 has the world's first U-Sheet auto-paper feeder built in inside to conserve the space outside. Operation of the AV610 is greatly simplified via its "One-Touch" design using Avison's exclusive "Button Manage" technology. The user only needs to properly position the document on the scanner, then execute the scan, copy, or e-mail function with the touch of a button. AV610 is equipped with USB 2.0 high-speed data port, allowing as many as 17 pages to be scanned in a minute. This is one scanner built with simplicity in mind; it will unquestionably double your efficiency for your documentation processing tasks.

AV610 Specifications	
GENERAL	
Type	1-pass color Flatbed Scanner with built-in ADF
Optical Resolution	600 dpi
Image Sensor	Color Charged-Coupled Device (CCD)
Light Source	Cold Cathode Fluorescent Lamp (CCFL)
Scanning Area	ADF mode 8.5"x14" Flatbed mode 8.5" x 11.69"
Scanning Modes	24-bits color 8-bits grayscale Dither and Error Diffusion
Interface	USB2.0
Power Source	100Vac-240Vac, 50-60Hz
Consumption	< 30 W
Operation Temperature	5°C to 35°C 20% - 80% RH
Dimensions	275 mmx447 mmx316 mm
Weight	4.7 Kg
ADF Specifications	
Speed	17 ppm (200dpi, lineart, A4-size)
Paper Tray Capacity	30 Pages
