

Sagem Orga supplies several million Vitale 2 smart cards

France obtains a new generation of health cards

Paris, November 7, 2006

Following its successful development of the operating system for the French health card “Vitale 2”, the SAFRAN Group has now received a contract to supply several million unpersonalized smart cards. 59 million Vitale 2 cards will be shipped to French citizen over the next four years.

“We have already demonstrated our tried-and-proven quality as part of the many years of cooperation in supplying first-generation health cards,” says Patrick Samier, CEO from Sagem Orga.

The smart cards will be supplied to CPAM du Val d’Oise, the French Healthcare Insurance Administration personalization office. Sagem Orga is one of the main vendors that will support nationwide rollout of the Vitale 2 health card in the coming four years.
